

ELECTRONIC BENCH PLATFORM SCALE

Strong, precise and dependable bench platform scale ideal for industrial and commercial applications.

FEATURES

- ▶ Stainless Steel platform with back rail for added support.
- ▶ Built-in rechargeable battery ensures upto 20 hours of continuous use.
- ▶ Durable and robust design suitable for commercial and industrial environments.
- ▶ Digital LED display with backlight for clear visibility.
- ▶ Heavy-duty platform for long-lasting performance.
- ▶ Mechanical overload protection with digital alert when the load exceeds capacity.
- ▶ RS232 interface for easy data connectivity.
- ▶ Delivers high precision and consistent reliability.

SPECIFICATIONS

Type of Instrument	Electronic Bench type
Accuracy Class	Medium Accuracy (III)
Maximum Capacity	Upto 5000 kg
Minimum Capacity	1kg
Verification Scale Interval	50g
Power Supply	230V, 50Hz
Display Unit	LED
Tare	Subtractive
Working Principle	Strain gauge type load cell based
Load Cell	Accuracy Class C3
